**Secure Control for Large Items**

**STAND-ALONE or ADD-ON**

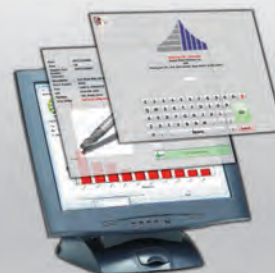

**CONTROL of LARGER  
ITEMS**

**LOW or MEDIUM  
SECURITY**

**SMALL FOOTPRINT**

The ATM Lockers provide an economic inventory access solution ideal for low cost, bulk or heavy items or as a buffer stock location working in conjunction with ATM products. Each Locker consists of three vertical stacks, each with 3, 6, or 9 electronically controlled cupboards.

**SIMPLE SOLUTIONS    TECHNICALLY ADVANCED**

# ATM Locker

## STAND-ALONE or ADD-ON

As a stand-alone the ATM LOCKER will function as a complete system. It can also be used as an add-on to any ATM equipment.

## CONFIGURATIONS

The ATM Locker comes in 5 different configurations letting you mix and match a variety of item sizes throughout the cupboards.

The system only unlocks the location containing the required item and guides the user directly to it using high brightness LED's. The user opens the locker, removes the item, and closes the cupboard which then is automatically locked.

## CONFIGURATION
