OWN SOLUTION

Staying on top is all about being in control

- ATM secure dispensing solutions come with over a decade of knowledge and experience, delivering substantial cost savings and benefits in inventory control.
- Reduce inventory levels
- Eliminate stock outages
- Increase forecast accuracy
- Lower accounting costs
- Automatic reordering
- Fast return on investment
- Highly reliable, rugged design, with few moving parts
- Various degrees of security
- Drawer based system eliminates damage
- Real time inventory makes sure you have what you need when you need it
- Extensive reporting features allow you to customize your data capture
- Powerful software offering flexible solutions
- Full graphic display of items
- Control usage by establishing restrictions and rationing
- Highly reconfigurable, flexible, and expandable.

While providing complete security, our ATM equipment is a simple, easy to use solution that is quick to master, reduces inventory levels, and acquisition times from the moment it is implemented.
